

Northern Territory Government Community Benefit Fund Sponsorship

Family Planning Welfare NT wishes to acknowledge and thank the Northern Territory Government Community Benefit Fund (CBF) grant program sponsorship.

During November 2019 we received sponsorship from the Northern Territory Government to upgrade our IT server. The Family Planning NT Information Technology IT server was over seven years old, becoming extremely slow to use and had no capacity to hold any further data.

Gaining a major sponsorship to replace this IT equipment along with upgraded software will see Family Planning NT working well into the future.

The help we received from the Northern Territory Government was valuable in supporting our community work.

Family Planning NT would like to thank the NT Government for their major contribution in sponsorship.

Thank you.
